

## AHIFLOWER OIL (VEGAN OMEGA)

Ahiflower has the highest omega-3 SDA available! SDA (stearidonic acid) is the most biologically advanced plant-based omega-3 source. Unlike flaxseed and fish oil, Ahiflower contains GLA, which is an omega 6 fatty acid that is associated with skin health, hormonal balance and reducing inflammation.

### Ahiflower Oil's Structure Function Claims and Consumer Benefits

#### **Structure/Function Claims-Supported by peer-reviewed science:**

- Supports Cardiovascular Health and Wellness
- Supports Cognitive Function & Fluid Intelligence
- Supports Joints and Mobility
- Supports Healthy Skin
- Supports Immune Function
- Supports a Healthy Inflammatory Response Post-Exercise

#### **Consumer Benefit Statements:**

- \* Better than flax, not from fish
- \* The omega answer
- \* Clean tasting, No fishy burps!
- \* Complete and balanced plant-based omega-3-6-9
- \* Up to 4X more effective than flaxseed oil
- \* Richest source of combined SDA and GLA
- \* Balanced 4:1 omega-3:6 ratio
- \* Fully traceable & sustainable under CropAssured365
- \* Look well, move well, feel well

Did you know that Ahiflower crop produced since 2013 has the same oil content as 32 million forage fish used to make fish oil! (WOW!)
